

Movement Building and Leveraging

Wed, 14 July 2021

9.00 - 12.30 EAT

#KenyanRestoration

Movement Building and Leveraging

This theme looks into how to develop strategies for bringing together grassroots organizations to catalyze large-scale restoration at local level.

Join the discussion as several types of grassroots organization or organizations with grassroots reach examine their restoration activities.

[Share](#)

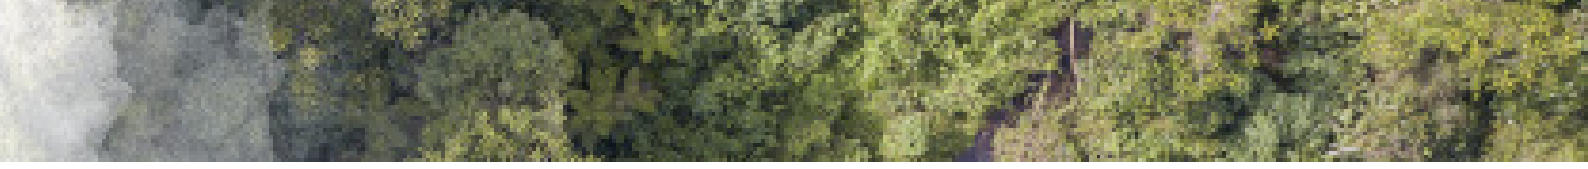

[Tweet](#)

[Forward](#)

Objectives:

1. To promote the understanding the need for strong grassroots movements for landscape restoration in Kenya.
2. To promote an understanding of the role of grassroots organisations or organisations with grassroots reach in landscape restoration in Kenya including how they participate in forest landscape restoration.
3. To explore how synergies between the various grassroots organisations can be encouraged.
