

# VALUE CHAINS

## High value crops incentivize adopting regreening practices

### Fruit is a natural choice:

- Household income from large domestic market
- Short- cycle agroforestry product -- fast- growing trees Enhanced household nutrition
- Favorable government policies ('Feeding the Cities' program)

Papaya

Tree tomato

Mango

Avocado fruit,  
Avocado oil

### Program Support

- Improved and disease/pest- resistant fruit varieties accelerated 64 farmer cooperatives and nurseries engaged
- 16 beekeeping collectives identified across the four districts and supported in integrating trees in their practice
