

Project sustainability and Exit plan

Philip Atiim

What we are doing

1. Strengthening functionality of Rural Resource Centers
2. Finalizing sustainability plans for District Environmental Management Committees
3. Compiling and disseminating best practices, technologies manuals and success stories
4. Empowering community champions, PASPs and lead farmers with critical information and linkages (training on plan)
5. Disposal of project materials and equipment to identified local partners
6. Hold results dissemination for a with stakeholders and partners
7. Identifying targeted sites, targets, time frame, activities and resources for implementing sustainability plan

Who is involved

1. District assemblies/ Agriculture departments (AEAs) lead farmers
2. Opinion leaders and farmers of beneficiary communities
3. Local implementing partners (AAK, URBANET)
